

Since 1982 I have worked so many settings that I can say I am the most public working psychic today in America. The combination of fun while being real is commentary on my skill set as a party psychic.

Two of my most recent works were at Morongo. Casino keeping the crowd entertained with quick Palm and One Card Tarot Readings as they waited in line for the Side Show to start. They were happy and time flew by enjoyably for them. This was in contrast to poolside cabana Readings with Mata for hard working Women at Spa Day with 45 minutes of deep and uplifting insights about life choices.

My group of psychics are authentic and well trained making it a memorable experience for your Guests. I look for long term relationships with Event Planners. You will have peace of mind in working with me, I arrive early do a very beautiful set up and only give good news while keeping the crowd moving.
